PROFESSIONAL SUMMARY

Motivated Backend Developer with hands-on experience in building and maintaining scalable server-side applications. Skilled in Node.js, Express.js, and database management. Proficient in developing RESTful APIs, authentication systems, and database integration. Passionate about learning, collaboration, and delivering efficient, secure backend solutions. Seeking a Backend Web Developer role to contribute technical expertise while gaining real-world industry experience.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript (ES6+), Node.js, Express.js

Databases: MySQL, MongoDB, SQL Server

APIs & Tools: RESTful APIs, Postman, JSON Web Tokens (JWT)

Version Control & Deployment: Git & GitHub

Testing: Postman.

PROJECTS

Book App | Node.js, Express.js, MongoDB, JWT

- Built RESTful APIs with authentication and CRUD operations
- Secured endpoints using JWT-based authentication

Task Tracker API | Node.js, Express.js, GitHub Actions

- Designed API with authentication and reporting features
- Automated testing and CI/CD using GitHub Actions

Portfolio Website | Node.js, SQL Server

- Developed backend supporting CRUD functionality
- Implemented database schema and API integration

API Testing & Documentation | Postman

- Created and tested APIs using Postman for collaboration and validation
- Implemented unit and integration testing for reliability

Resume Analyzer

An AI-powered resume analyzer that compares job descriptions with resumes/cv to evaluate skill matching. Built with Node.js, Express, and easily testable with Thunder Client / Postman

CERTIFICATIONS

- Skillpaddy – JavaScript, Node.js, Express, MongoDB & More
